

SIZE CHART MERRELL MEN

(Petrin's Note! Merrell does not provide instructions for measuring the length of one's foot - I have applied Altra's instructions below to measure the foot.

How to measure your foot?

Step 1

Position a piece of paper on a hard floor next to the wall, and step on it making sure your heel is slightly touching a wall behind.

Step 2

Mark the end of your big toe and the outermost part of your heel on the paper, and repeat the process with your other foot.

Step 3

Vapor Glove / Vapor Glove Leather - do this:

Measure the distance (the length of your foot) and add 0.5 cm in Vapor and 0.8 cm in Vapor Leather to make sure there is enough room in the shoe and convert according to the chart below. If your feet are two different sizes, use the length of your larger foot compared to the size chart.

Trail Glove - do this:

Measure the distance (the length of your foot) and add 0.2 cm to make sure there is enough room in the shoe and convert according to the chart below. If your feet are two different sizes, use the length of your larger foot compared to the size chart.
