BLUETOOTH KEYFOB
REMOTE

Flexibly manage permissions and times

Individually configurable with compatible DoorBird units

IP 56

Dust-proof and water-proof for high durability

Compact format and robust aluminum frame

DOORBIRD A8007 BLUETOOTH KEYFOB REMOTE

INDIVIDUALLY CONFIGURABLE
FLEXIBLE USE
COMPACT DESIGN

FOR SINGLE-FAMILY, MULTI-TENANT, AND COMMERCIAL RESIDENCES

Use your DoorBird Bluetooth Keyfob Remote for all your entries that are equipped with DoorBird units. The two buttons can be individually programmed to conveniently open doors and gates, turn on the lights, call the elevator and much more. For all DoorBird units installed at your entrances and buildings, you can set different actions, permissions and time profiles individually. Commands to the smart home automation system are also possible.

FOR RESIDENTIAL AND COMMERCIAL USE

The Bluetooth Keyfob Remote is very compact and can be taken anywhere as a key chain or attached to the sun visor in the car. When passed on to friends, relatives or tenants, they can open doors and gates independently or trigger events, depending on the authorization rights. It is also very convenient for service providers and property managers, by allowing access to the building at a predefined time. Lost remote controls can be easily deleted via the app.

FEATURES

- 2 freely programmable keys for door and gate opening, light, elevator and many more*
- Button events, authorizations and time profiles can be set individually via the DoorBird app
- Button events: switching of integrated (D11x, A1121, D1812) and separate (A1081) DoorBird relays or sending of HTTP(s) commands to control external systems
- Dust-, water-, and shock-resistant according to IP56 standard
- Robust and small with a frame made of high quality aluminum
- Usable at all entrances and buildings with compatible DoorBird units, individually configurable
- Practical to pass on to friends, relatives, service providers, property managers, or tenants
- Multicolor status LED gives feedback whether the button command was successfully sent
- Easy configuration and management via the DoorBird App
- In case of loss, the Bluetooth Keyfob Remote can be deleted directly via the app
- Car mount for sun visor included in the scope of delivery

*Requires appropriate on-site interfaces for connection to the DoorBird relay or processing of HTTP commands.

TECHNICAL DATA

Dimensions	65 x 26 x 7 mm (W x D x H) 2.56 x 1.02 x 0.27 in (W x D x H)
Power supply	Battery CR1632 (not included)
Display	Multicolor status LED
Range	Between 5 m (16,40 ft) and 15 m (49,21 ft), depending on environment and usage
Bluetooth	2.4 GHz (BLE, low-energy)
RFID	13,56 MHz NFC-A tag integrated
Functions	2x Push button to control: - Integrated relays of DoorBird devices - Relays of paired A1081 Door Controllers - Sending HTTP(s)-request
System requirements	Max. 7 pairable devices (e.g. compatible Door stations and Access Control Devices) DoorBird device with Bluetooth integration: - DoorBird D11x series - DoorBird A1121 series - DoorBird D1812 series Mobile device: latest iOS on iPhone/iPad, latest Android on smartphone/tablet
